

Accessing CCGI Basic Accounts

To access their Basic Accounts, direct students to visit CaliforniaColleges.edu, at <https://www.californiacolleges.edu/>, which is administered by CCGI, and select "Register My Account." Students will need the following information to complete registration:

1. District Name - **Los Angeles Unified**
 - If the student attends a Charter School, they will select the name of the District or County Office of Education that authorizes the charter school they attend.
2. School Name - **CHIME Institute's Schwarzenegger Community**
3. Student ID - **Sent via a separate email**
 - This may be either their local student ID or their Statewide Student Identifier (SSID).
4. Date of Birth
5. Student's individual email address provided by the school. If the student is not provided an individual school email address, then the student may register their account using a personal email address. The student, however, should change their personal email address to their school provided email address if it is later provided.

A step-by-step tutorial for students on how to register their student account is available via CaliforniaColleges.edu on the *How to Register Your Student Account* web page at <https://www.iorad.com/player/2321490/How-to-Register-Your-Student-Account?iframeHash=trysteps-1#trysteps-1>

Step-by-step tutorials for all of the tools that are available to students using Basic Accounts can be found in the CaliforniaColleges.edu CCGI Resource Hub on the *Resources for Students with Basic Accounts* web page at <https://www.californiacolleges.edu/resourcehub/basic-student-account-resources/>
